**SKILL PRACTICE:** Reading Across the Curriculum, money, simple addition and subtraction

## Mother's Day Math

Katie went to the store to buy her mom a chocolate bar for Mother's Day. She had 10 pennies, 2 nickels, and 3 dimes. Each chocolate bar costs \$0.50. Does she have enough money? \_\_\_\_\_

Greg went to the store to buy his mom some flowers for Mother's Day. He had a \$1 bill, a \$5, and a \$10 bill. Each flower bouquet is \$20. Does he have enough money to buy a bouquet? \_\_\_\_\_

Susan bought her mom 10 pieces of chocolate for Mother's Day, but she ate 2 of them. How many pieces are left? \_\_\_\_\_

Jeff picked 8 flowers for his mom at the park. On the way home, he picked 4 more. How many flowers did he have in all? \_\_\_\_\_
